NPT Required for a Vote of No Confidence in the 2020 Elections HA-14-9-23

By Anthony J. Sanders

Three of four Election Assistance Commission (EAC) members are hereby obligated to vote to require that any attempts by Congress to try, impeach or remove Biden from office publicly prioritize compliance with the 1,700 active and 2,200 warhead limit set by President Barack Obama pursuant to the 2012 Nuclear Non-Proliferation Treaty (NPT) Review Conference 52USC§20928.

United States v. Burr, 25 F. Cas. 30 (No. 14,692d) (CC Va. 1807)

United States v. Nixon, 418 U.S. 683 (1974)

United States v. Zubaydah (2021)

The United States of America is one of the world's two nuclear superpowers, one of five nuclear weapon corrupted permanent members of the UN Security Council, and one of only nine states, the USA, Russia, China, Great Britain, France, India, Pakistan, Israel and North Korea, other than certain US allies hosting US nuclear weapons, Belgium, Germany, Italy, the Netherlands and Turkey, who possess nuclear weapons. Whereas, with more than 250,000 nuclear holocaust casualties in Hiroshima and Nagasaki on August 6, and 9, respectively, the United States of America, is the only nation to have ever officially engaged in any hostile activity involving nuclear weapons. Truman was not re-elected after one term. These numbers do not include nuclear testing and toxic leak casualties. By comparison, only 3 persons are known to have died accidentally as the result of Soviet nuclear weapons experiments, for which the supervisor was given the medal of honor.

Although there are a number of national suspects, seismic evidence indicates President Biden is the only person suspected to have ever intentionally used nuclear weapons to murder, rather than willfully kill during a time of war, against better counsel, eg. Truman. To resolve the 2020 election fraud both Trump and Biden are disqualified from holding federal office due to their respective, finance and use of nuclear weapons, in violation of the prohibition on assisting nuclear proliferation through provision of financing 22USC§6303, not racist and xenophobic speculation by Rep. Boebert (R-CO) who narrowly avoided prohibition for inciting the Marrakech earthquake, Colorado Air National Guard suspected of digging Morocco borehole, and causing the cancellation of my border study, by surrendering her incompetent jurisdiction to the Homeland Security and Judiciary Committees, for due process of Republican conviction and murderous white Democrat infiltration of The report of the Special Rapporteur on contemporary forms of racism, racial discrimination, xenophobia and related intolerance A/73/305 of 6 August 2018.

To keep the peace, it is necessary that Congress publicly require the White House to comply with the most recent 1,700 active and 2,200 warhead limit set by the 2012 NPT Review Conference, despite Speaker of the House Kevin McCarthy's misprision of treason 18USC§2382 on the topic of unconditionally surrendering to the NPT, for which he too is disqualified from holding federal office, and should be replaced, for concealment, removal or mutilation generally and §2071, if he cannot

prioritize NPT compliance as the primary condition for Biden and Blinken to remain in office for the duration of their most murderous official in the world trial, in his “vote of no confidence”, in regards to the 2020 Presidential election fraud.

Art. 2 Sec. 4 and Art. 3 Sec. 3 of the US constitution states a president can be impeached for "treason, bribery, or other high crimes or misdemeanours", a process, burdening only the Senate and Chief Justice (Murdaugh) of the Supreme Court, that can end in the President being removed from office. However, any effort to “impeach” President Biden would be unlikely to succeed. That form of commanding officer non-judicial punishment has already been tried, with disastrously retaliatory circumstances, under 24USC§419(a)(4), and the impeachment proceeding is though to be in bad taste, to burden *Bush v. Gore* (2000), although Congress is the supreme authority for determining the outcome of federal elections. Whereas the 2020 Census election fraud – the winner Biden and the warrior Blinken - warrants due process for racketeering, and everyone is very displeased with their foreign policy a “vote of no confidence” by the supreme constitutional authority over the Electors - the House and Senate – is warranted by Art. 1 Sec. 5 and Art. 2 Sec. 1 US Constitution.

Law scholars have made it clear that Trump is disqualified from holding office, for having been on the side of the January 6th insurrection or rebellion against the counting of votes by Congress under 3USC§15 pursuant to Sec. 3 of the 14th Amendment to the US Constitution. Having stolen the election, Biden and his Secretary of State, Antony J. Blinken, are far too murderously dangerous, for Republicans, like Mitt Romney, who resigned after filing for two impeachment proceedings against Biden, to non-self incriminatorally speculate about allegations of abuse of power, obstruction and corruption.

To do the “vote of no confidence” justice, above all the extortionate overestimates, Biden must be removed, or threatened to be removed from office, as a matter of discipline, because he is not in compliance with the 1,700 active and 2,200 warhead limit set in the 2012 NPT Review Conference, President Barack Obama agreed to, to allegedly to stop his Vice-President, a white Democrat, descended from slave owners, from nuking faults, to intentionally mass murder, a mostly racism motivated hate crime, a crime against humanity, recently described to explain the ejection of the United States of America from proceedings for not themselves upholding Art. IX of the Genocide Convention in regards to the *Allegation of Genocide under the Convention on the Prevention and Punishment of the Crime of Genocide (Ukraine v. Russian Federation)* 2022.

Due diligence of Biden's nuclear fault, not dissimilar to overestimates of the Bureau of Fiscal Services, who invariably responds to emails by exploding, but thousands of times more violent, requires the extortionate calculus of the arteries in the FY 2021 - FY 2024 Presidential budgetary tax and spending overestimates, be federally charged with racketeering pursuant to the prohibitions governing atomic weapons in the references to 18USC§831 in 18USC§1961(1) and to section 92 of the Atomic Energy Act of 1954 42USC§2122 in 18USC§1956(c)(D), that has already been used by the International Court of Justice to secure Biden's admission that the United States President has the sole power to detonate any nuclear warhead in the US arsenal, using the services of his constant companion, the White House nuclear weapons attaché.

The international treaty obligations is to secure compliance of the United States of America with the 1,700 active and 2,200 warhead limit set by the 2012 NPT Review Conference, not to prove that Biden has nuked any tectonic faults, although those seismically substantiated allegations of extremely prolific mass murder are so serious they cannot ever be dismissed, like Biden and Blinken must be, to conduct any sort of federal business without such apocalyptic risk. Bipartisan support has been for a statistically

NPT negligent policy of nuclear force modernization, since Trump was disqualified to hold federal office for financing the unlawful nuclear weapon buildup, that was subsequently stolen by the only the only person(s) ever thought to intentionally use nuclear weapons to nuke tectonic faults to murder innocent civilians of friendly nations 18USC§1111.

Over time, the Supreme Court of the United States has developed the common law doctrine known as the “state secrets privilege,” which protects sensitive national security information from being disclosed in civil litigation. First, in the 1876 case of *Totten v. United States*, the Court held that the judiciary lacks jurisdiction to hear a suit in which the underlying subject matter is a state secret if the suit “would inevitably lead to the disclosure of matters which the law itself regards as confidential.” Second, based on the Court’s 1953 decision in *Reynolds v. United States*, the Court has permitted the government to invoke the state secrets privilege more narrowly to protect only certain pieces of sensitive evidence if there is a reasonable danger that disclosure during litigation “will expose military matters which, in the interest of national security, should not be divulged.”

During its October 2021 Term, the Supreme Court decided two contradictory cases involving the state secrets privilege. In *United States v. Zubaydah*, the Court determined that a court cannot declare that classified information apparently in the public domain is not subject to the state secrets privilege when the United States has not officially confirmed or denied such information. In *Federal Bureau of Investigation v. Fazaga*, the Court decided that certain Foreign Intelligence Surveillance Act of 1978 (FISA) provisions, which specifically require courts to review the underlying classified FISA applications and information to determine the lawfulness of surveillance, do not displace the traditional Reynolds privilege that protects information that would harm national security if disclosed. Although invocations of the state secrets privilege are relatively rare, they may have stark results for civil litigants. Congress may review whether this process is effective in balancing litigants’ needs against the legitimate need to safeguard national security and whether the process reflects the congressional priority (Elsa-Liu '22) to require Biden-Blinken to comply with Obama's 1,700 active and 2,200 warhead limit.

The gravity of these allegations of nuclear fault and extortion against the “election fraud deniers” who presided over the stuffing of the incredibly high 2020 66.8 percent voter turnout, unprecedented since before 1900, warrant the supreme constitutional authority of the House and Senate to pass a vote of no confidence in the 2020 election to set the elections straight under Art. 1 Sec. 5, Art. 2 Sec. 1 of the US Constitution. Congress must remove Joseph Biden from office because his nuclear fault, and the Truman doctrine of his Secretary of State Antony J. Blinken, but not necessarily Vice-President, Kamala Harris, warrant removal from the office of the Chief Justice under Art. 2 Sec. 4 and all federal office pursuant to doing treason, felony and misdemeanor justice constituting levy of war against the better national security interest of United States under Art. 3 Sec. 3 of the US Constitution.

All the bipartisan “nuclear weapons modernization” racketeers in Congress must do is to publicly require the Biden Administration to comply with 1,700 active and 2,200 warhead limit set by the Nuclear Nonproliferation Treaty Review Conference in 2012, that President Barack Obama complied with, as a pre-condition for the civil trial of any impeachable criminal offense, and charge Biden and Blinken with murdering and destroying the real property of a current total of 299,961 persons with nuclear weapons and boreholes against 18USC§831. As a rule, absolute immunity from executive privilege and state secrecy is not tolerated, by courts of competent jurisdiction, to be invoked to conceal crimes due public trial under the VI Amendment; *United States v. Burr*, 25 F. Cas. 30 (No. 14,692d) (CC Va. 1807), *United States v. Nixon*, 418 U.S. 683 (1974) and *Nixon v. Fitzgerald*, 457 U.S. 731 (1982).

Haiti's Enriquillo Plantain Garden Fault, twice, on January 10, 2010, a quake of 7.0 magnitude struck at a depth of 8.1 miles, causing an astounding 220,000 deaths, and again on August 14, 2021 a quake of 7.2 magnitude struck at a depth of 6.2 miles, incidental to the discovery that 100 percent of Moïse assassins were State Department International Military Education graduates, after new building codes, another 2,220 died.

Japan's, Pacific Rim Subduction Zone, on March 11, 2011 the 9.2 magnitude Tohoku earthquake struck at a depth of 15 miles along the, causing 19,759 deaths and the Fukushima meltdown that brought Obama into compliance with the NPT.

California, twice on December 20, 2021 a quake of 6.2 magnitude struck the Fuca/Gorda plates at a depth of 16.8 miles, and December 20, 2022 another quake of 6.4 magnitude struck the Mendocino Fracture Zone, at a depth of 11 miles, causing two fatalities.

Türkiye and Syria East Anatolian Fault, on February 6, 2023 a quake of 7.8 magnitude struck at a depth of five miles, causing 50,000 casualties, right after the US Treasury sent an official to discuss sanctions against Russia.

Morocco's Marrakech mountain fault between the African and Eurasian Plates on September 8, 2023 at 11:11 pm, a 6.8 magnitude quake struck at a depth of 11 miles, causing 2,000 casualties, a crime against the proposed admission of the African Union into the G20 by India Prime Minister Modi.

Libya's Mediterranean Tropical Cyclone Daniel caused 6,000 dead with 9,000 still missing, due to 7 meter high tsunami destroying two dams, after careening through Greece, Bulgaria, Although there seems to have been some delay regarding the exact date of the Libya flooding, this seems to mean that the flooding in Libya and the earthquake in Morocco occurred simultaneously at 11:11 pm September 8, 2023, as the result of opportunistic nuking of Marrakech mountain fault during Storm Daniel.

In review, this means that Biden-Blinken's total nuclear fault murder count stands at 299,961 and is very likely to exceed the 300,000 casualties, I prematurely prophesied, by the end of this allegedly zero mile, sunshiny, first of two 80 percent chance of rain days.

Long live Kamala Harris and Barack Obama; resident of the United States!!!

Respectfully hiking,

Anthony J. Sanders

PS Shootin' the Breeze reported, a 37-year-old Brooks man died Tuesday following a drowning incident on the upper portion of Waterton Lakes. The man was swimming with family Tuesday afternoon when he ran into trouble. He was not a strong swimmer and there are strong undercurrents. One of those to perform CPR was a medical doctor. Police and EMS from Pincher Creek were called out just after 4 p.m. I neglected to take a picture of the bloated corpse under a shroud, surrounded by police. This was the first and only dead body I have ever seen. While I was watching *Oppenheimer* (2023), in the shade, Vinod Pundora was celebrating some family time in Waterton on 15 Aug 2023, suddenly everything was lost when he drowned (and could not be resuscitated). He was 38. Vinod was working in hospitality industry in Brooks, Alberta, Canada. All this happened in front of Priyanka (wife of Vinod) and their young son. I made a \$20 Canadian donation and \$3 service charge to his family's Go-Fund-Me site at <https://gofund.me/640c69bc>

Designated in 1932, the Waterton-Glacier International Peace Park is the world's first International Peace Park. Situated on the Canada-U.S. border, it offers outstanding scenery and diverse flora and fauna. The International Peace Park commemorates the peace and goodwill Canada and the United States continue to share. The two-nation hike through Waterton-Glacier International Peace Park is unique. Walking across the border reinforces the shared ecosystem of the parks that UNESCO recognizes as Biosphere Reserves and World Heritage Sites. Hikers can walk south from Canada to Goat Haunt, US. They can cross the boundary on foot without going through customs until reaching the Goat Haunt Ranger Station. In front of the station, a picnic table serves as the official desk for US custom's officers to stamp passports. There was no attendant and I neglected to take a picture of the passport stamping device. In Waterton townsite the Shoreline Cruise clerk gave me the number to report my entry to Canada Customs, few hours before Vinod Pundora's drowning on 15 Aug 2023.

Prior-consultation with the International Court of Justice regarding the visa requirements for US citizens to walk across across the border to Canada was fruitful and impossible COVID era restrictions on pedestrian self-reporting of border crossing were lifted. I saw a black bear eating berries on each side of the international border, the only bear encounters I had on an abbreviated Continental Divide Trail, due to the extraordinarily high snow-pack of 2023. It will be another year, until I am fifty, before I will have truly hiked the Triple Crown – the Appalachian (AT), Continental Divide (CDT) and Pacific Crest (PCT) Trails. The impossibility of the COVID era Canada border crossing rules led Garmund to stop insuring people against \$50,000 American search and rescue airlift bills for running out of food at the Canadian border. According to the National Parks Traveler article regarding Cross-border Travel Between Glacier Lakes National Parks to Resume of June 8, 2023.

Travel across the United States-Canada border requires planning ahead and adherence to U.S. Customs and Border Protection and Canadian Border Service Agency regulations. Visitors wanting to cross the border by personal watercraft or hiking trail must have a passport and report their entry to the United States via the CBP ROAM app and their return to Canada to CBSA via telephone. Visitors taking a cruise through Shoreline Cruises do not require a passport. Kiosks will be available near the boat dock for visitors to use ROAM. More information about the CBP ROAM app can be found on the CBP's website. Thank goodness I am not hiking to the border.
