

In the United States Supreme Court

Donald Trump ex rel v. Jo Biden, President of the United States HA-21-12-23

Kamala Harris, President of the Senate v. Antony J. Blinken, Secretary of State

By Anthony J. Sanders
Hospitals & Asylums

All process of this Court issues in the name of the President of the United States under Rule 45(1) of the US Supreme Court. When a public officer who is party to a proceeding to this Court in an official capacity...ceases to hold office, the action does not abate and any successor in office is automatically substituted as a party under Rule 35(3) pursuant to the First Amendment right to sue the government for a redress of grievances. The facts of the case are that 66.8 percent voter turnout in the 2020 Presidential elections is unprecedented since before 1900. Ballot stuffing favoring the Biden-Harris ticket is certain to have occurred. Neither Trump, nor the US Supreme Court, who frivolously authorized allegedly falsely elected state courts around the nation to sue Trump, made the unprecedented 66.8 percent voter turnout the basis of their wild speculation on the topic of voter fraud. It is held, the 2024 ballot should be fingerprinted, and facilitate a vote to see which of the two clearly disqualified Presidential candidates, Trump or Biden, should have won the 2020 elections, on the same ballot the 2024 President and other candidates are lawfully elected.

Use of military authority to influence the vote of Armed Forces 18USC§609

Dear Election Assistance Commission:

All process of this Court issues in the name of the President of the United States under Rule 45(1) of the US Supreme Court. When a public officer who is party to a proceeding to this Court in an official capacity...ceases to hold office, the action does not abate and any successor in office is automatically substituted as a party under Rule 35(3) pursuant to the First Amendment right to sue the government for a redress of grievances. The facts of the case are that 66.8 percent voter turnout in the 2020 Presidential elections is unprecedented since before 1900. Ballot stuffing favoring the Biden-Harris ticket is certain to have occurred. Neither Trump, nor the US Supreme Court, who frivolously authorized allegedly falsely elected state courts around the nation to sue Trump, made the unprecedented 66.8 percent voter turnout the basis of their wild speculation on the topic of voter fraud. Omission of the true cause for public alarm regarding the integrity of the electoral system, unprecedented 66.8 percent voter turnout in the 2020 elections, must be prohibited for inciting the January 6, 2021 insurrection, inquisition and involuntary nature of the interfered counting of votes 3USC§15 under Art. 20 of the International Covenant on Civil and Political Rights (1978). It is held, the 2024 ballot should be fingerprinted, and facilitate a vote to see which of the two clearly disqualified Presidential candidates, Trump or Biden, should have won the 2020 elections, on the same ballot the 2024 President and other candidates are lawfully elected.

The primary cause of action in the US Supreme Court is that in *Anderson v. Griswold* No. 23A300 (2023) a majority of the Colorado Supreme Court held that the man they call "President" Trump is disqualified to hold the office of President under Section Three of the Fourteenth Amendment to the US Constitution, whereby a two-thirds majority of each house is needed to remove such disability. They hit one of two nails on the head, but their abuse of the gavel to silence Republican Justice Thomas is biased, and fails to finish the job. They argue Trump is disqualified, and it would therefore be a wrongful act under the Election Code for the Colorado Secretary of State to list him as a candidate on the presidential primary. The court stays its ruling until January 4, 2024, subject to any further appellate proceedings. Incidental to this Colorado case, Presidential missions of Colorado National Guard and Air Force Academy must be accused of brazenly nuking Haidong, Quingai, China, after a prior drone attack on Moscow. Consequently, it is proposed that all Presidential missions using the Colorado National Guard be terminated, and the US District Court use Transportation Command manifests to investigate the misprision of treason 18USC§2382.

Provided, the Colorado Supreme Court can digest the fact that Biden's intentional murder is more evil than Trump's involuntary manslaughter, and equally deserving of being disqualified to hold federal office, due to insurrection and rebellion, they win under Art. 3(3) of the US Constitution and Sec. 3 of the Fourteenth Amendment. The US Supreme Court is obligated to emphasize that Biden is President, and it is Biden and Blinken who must be disqualified under Rule 35(3) of the Supreme Court and the First Amendment. Blinken stuffed the ballot to elect someone, Biden, who is peculiarly disqualified from holding federal office, for habitually nuking faults, beginning with the Enriquillo Plaintain Garden Fault in Haiti that caused 222,000 casualties in January 2010 22USC§6303. Biden is

disqualified for his nuclear fault, detonating nukes he nicked from President Obama, who prevented it from happening again by establishing 2,200 nuclear warhead limit in 2012. The 2,200 warhead limit was subsequently broken by Trump's grudging finance of nuclear weapons modernization, beginning in 2018, that was then stolen by the only living person in the world with any history of hostile use of unaccounted for warheads in the US arsenal, Biden and his and every elected US official's master, Blinken, whose title of most murderous official in the world was stolen from Saddam Hussein's corpse, by unauthorized US war propagandists fraudulently elected by no popular election other than that of the equally corrupt US Supreme Court in *Bush v. Gore* (2000), who is now sought to do the 2020 Presidential election justice against senile demented mass murder from the cold war, for the vote of no confidence by Congress under Art. 1 Sec. 5 and Art. 2 Sec. 1 of the US Constitution.

Trump's incitement of ethnic violence is noted by the The report of the Special Rapporteur on contemporary forms of racism, racial discrimination, xenophobia and related intolerance A/73/305 of 6 August 2018 to be prohibited by Art. 20 of the International Covenant on Civil and Political Rights (1978), that prior to his Presidency, was effectively used to prohibit propaganda in the news media. Trump's clueless administration betrayed their involuntary man-slaughterer and the ballots have been shredded after 22 months 52USC§20701. The Democratic supermajority 2020-2022 and Jan. 6th Committee made sure that Trump is unable to prove he was truly the winner of the 2020 election that was massively stuffed with identities, gleaned for not voting, leaked by the 2020 Census in violation of 18USC§245(b)(1)(A). The current Republican majority in the House is due to Republican contests regarding the stuffing of 2022 midterm elections with the disclosure of names identities coerced from student loan relief applications in contempt of a court 18USC§605, that failed to corroborate these serious allegations founding the meager Republican majority in the 118th Congress, in either *Biden v. Nebraska* (2023) and *Department of Education v. Brown* (2023).

The FBI and judiciary must be prohibited from any further voter intimidation regarding the Presidential elections 18USC§594 on an equally recognizable basis with interference by armed forces 18USC§593 whose Biden protected unconventional weapons missions assassinating and dosing unstable dictators and subjecting the seismic code to unlawful tests in violation of the Comprehensive Nuclear Test Ban Treaty (1996) seems to be the true objective of the victory of his criminal conspiracy, but not the means like it was for Bush who is finally reported to have used military authority to influence the vote of entire platoons of Armed Forces 18USC§609. Biden stole Trump's nukes. Democrats have made it painfully obvious that no elected official truly has the capacity to win the election fraud anymore, and unless real measures are taken to prevent the current electoral regime from theoretically stuffing the ballot in the 2024 Presidential election, with the identities of non-voters, or in a new way; the morally and numerically incompetent constitutionally elected government, must be equally discredited with the extortionate federal budget overestimates and the judiciary, to make way for the Echinacea Recount Agenda of 2024.

It is ironic that the only immediate political survivor of disqualification from office for serious violations relating to the 2,200 nuclear warhead limit 22USC§6303, is Kamala Harris, colored female lawyer President of the fakest institution in the United States, the 50/50 split in the Senate, whose ties and 51 vote “nuclear option” to amend Senate Rule are decided by Ms. Harris, President of the institution whose first act was to unlawfully confirm their own personal ballot stuffer, most murderous official in the world, Antony J. Blinken, Secretary of State, who must be immediately replaced with a pacifist long before the November 2024 elections. In conclusion to this hasty, and as of yet, unpublished brief, submitted within 32 days pursuant to the Rules of Court, it seems best to inform the

same Court who murdered more than a million Muslims, siding with one of their most prolific executioners in *Bush v. Gore* (2000), Congress is the supreme authority on Elections in Art. 1 Sec. 5 and Art. 2 Sec. 1 of the US Constitution. In this case the US Supreme Court may authorize Congress to debate on and pass a vote of no confidence in the 2020 elections whereby both Trump and Biden shall be disqualified from holding office, mostly clearly for their racist and treasonous violations of the 2,200 nuclear warhead limit, under 22USC§6303 to please Hungarian-Jewish lawyer Antony J. Blinken, Secretary of State, the most murderous official in the world, lead ballot stuffer, war propagandists and fake news staffer, who must be removed most of all, to be succeeded by Kamala Harris, President of the United States, and Democratic candidate for President in the 2024 elections.

Congress had to be vacated after Johnson (LA-R), a Louisiana lawyer, was elected Speaker of the House, due to racist, political and cyber censorship tactics, known as cultural erasure, that are evidently at the core of Johnson's and Louisiana's habitual judicial unconstitutionality. Although Louisiana is not the most populous state in the nation, with 50,100 people behind bars in 2013, its judges are the most penal and arguably the cruelest in the United States, that has been committed to working on reducing the largest prison population in world, successfully since the Obama administration. In 2013 Louisiana held 1,420 adult detainees per 100,000 adults and 1,082 detainees of all ages per 100,000 residents, the most of any state, in a nation whose judiciary must be sentenced to a 250 detainee per 100,000 resident limit. As a consequence of the judicial corruption of the House (of correction), the Echinacea Recount Agenda was amended to sue Louisiana for a 250 detainee per 100,000 resident limit and to remove the power of political decision-making in the all-important summary, from anybody judgmental enough to oppose Biden's racketeering, to whimpily finger Blinken corrupted Harris for success, a strategy most keenly associated with the endless orders of succession proclaimed by the Bush Administration after the Election Assistance Commission's foundational failure to remove Bush and Cheney from the 2004 elections due to the unauthorized invasion of Iraq being a war crime, murder for the deceitful war propagandists and willful killing for many corrupted enlisted men, now costing the VA 100 percent disability to minimize terrorist trouble from their hostile card games with Ids. The two drafts of the same political decision, the Court must now substitute the elected for the ex relation to achieve, are presented in chronological order.

To pass a vote of no confidence in the 2020 elections, whereby both Trump, for finance, and Biden, for suspected use, would be disqualified to hold federal office, exclusively for treason in regards to the US nuclear stockpile exceeding Obama's 1,700 active, 2,200 warhead limit established by 2012 Nuclear Non-Proliferation (NPT) Review Conference 22USC§6303, to be succeeded by Vice President Kamala Harris, if she agrees to the NPT and a Congress, who also won the 2020 election fraud, with 66.8 percent voter turnout, unprecedented since the 19th century, and sincerely wants to restore confidence in the fairness and accuracy of the electoral and other identity related statistical systems, post-COVID extortion 18USC§871 et seq., at nuclear fault with 18USC§831 in 18USC§1961(1) and section 92 of the Atomic Energy Act of 1954 42USC§2122 in 18USC§1956(c)(D).

To pass a vote of no confidence in the 66.8 voter turnout of the 2020 election of Secretary of State Antony J. Blinken, most murderous official in the world, whereby both Trump, for finance, and Biden, for suspected use, would be disqualified to hold federal office, exclusively for treason in regards to the US nuclear stockpile exceeding Obama's 1,700 active, 2,200 warhead limit established by 2012 Nuclear Non-Proliferation (NPT) Review Conference 22USC§6303, to be succeeded by President Kamala Harris, in command of the 2,200 nuclear warhead limit, and new Secretary of State to translate

Court of International Trade of the United States (COITUS) to Customs Court (CC) and Title 22 of the United States Code Foreign Relations and Intercourse (a-FRai-d) to Foreign Relations (FR-ee).

Besides the Colorado ballot disqualification case, Trump has three other frivolous inferior court cases that must be abated by a Court who homicidally refuses to do away with the nonsense and disbar some white male attorneys for the laundering of their own personal monetary instrument, the federal government ie. Jack Smith, Special Counsel, Antony J. Blinken, Secretary of State, Richard Cordray, Federal Student Aid Chief Operating Officer, Biden et al Rule 8 of the Supreme Court Rules of Practice and 18USC§1956. Trump is a non-lawyer with a civil case in New York and two (unpublished) criminal cases in southern states, one in Georgia and one regarding the the seizure of Presidential document in Mar el Lago by, of all ballot stuffing, National Archive and Record Administration (NARA) impersonators, the exact same FBI, who dosed the 9-11 suicide, Simchat Torah aggressors, and 9 out of 10 domestic rampage shooters, pled interference by Russia in the 2016 election and is in general the FSB (former KGB), Shin Bet and Mossad of the USA, who is especially enjoined not to interfere with the elections to prevent politicization (reckless assassination), and for the most part abolished by anyone other than a witless, enslaved, enslaving, American lawyer, doctor or informant with addled mind. The use of the FBI to seize Mar al Lago documents and also as state court security and especially in the Office of Special Counsel's one sided criminal probe of Trump, both when he was President and when the FBI seized Special Counsel needs to go to prison for his abuse of the first amendment freedoms and especially right to sue the government, related to covering up Biden's war and election crimes by persecuting Trump, sends a clear message to the entire FBI-extra-judiciary, who outrank the cyber-torturing Attorney General in all fifty states since torture statute was hacked in 2009, not to be an FBI stooge, or criminally intimidate voters regarding the Presidential election, or indeed murder their family, at all 18USC§594.

The Trump team of stupid American lawyer's intentionally losing defense in the Georgia election fraud case is that the President shall be immune for all their official actions. Trump seems to like this cheap substitute for “66.8 percent voter turnout in the 2020 elections is unprecedented since before 1900” because if he is convicted, he could then sue the Biden, as though he would only then be a self-respecting victim of voter intimidation. It's the only way to get a paragraph out of this southern court's historical gibberish written by the winner of said election fraud. A President is entitled to absolute immunity from damages liability predicated on his official acts. A rule of absolute immunity for the President does not however leave the Nation without sufficient protection against his misconduct. There remains the constitutional remedy of impeachment, as well as the deterrent effects of constant scrutiny by the press and vigilant oversight by Congress according to *Nixon v. Fitzgerald*, 457 U.S. 731 (1982). In *United States v. Burr*, 25 F. Cas. 30 (No. 14,692d) (CC Va. 1807) Chief Justice Marshall held that a *subpoena duces tecum* can be issued to a President. The immunity of executive privilege is limited to civil damages claims. Neither the doctrine of separation of powers, nor the need for confidentiality without more, can sustain an absolute, unqualified Presidential privilege of immunity from judicial process under all circumstances. The President cannot, through the assertion of a broad and undifferentiated need for confidentiality and the invocation of an absolute, unqualified executive privilege (to prosecute racially and radioactively sinful Trump for the true crimes of other recent Presidential election frauds he semi-effectively, but secretly suppressed, to his ultimate defeat in the 2020 election fraud), withhold information (that at least two generations of Bush, Cheney, Biden and Blinken are true war criminals who must be removed from politics or sentenced to prison for their truly horrendous crimes) in the face of subpoena orders pursuant to *Cheney v. U.S. District Court for the District of Columbia*, 542 U.S. 367 (2004).

American home prices have steadily declined since Q4 2022, as buyers back away from inflation-boosted home prices since the filing of *People of the State of New York v. Trump et al* NYSC No. 452564 (2022) where overvaluing property values was associated with white privilege, to explain one reason, aside from 80% black public housing, for the old adage that African-American families possess only \$5,000 in household wealth while white families own more than \$100,000. There is obviously some merit in the civil case, however the New York Attorney General seems excessively punitive against Trump, trying to not only give lies about real estate value of property used as collateral for a reduced interest loan, that Trump could afford, dollar for dollar value, but bar Trump from doing any business in the state of New York, although this would result in extensive property damage to state of New York real estate and tax revenues, and fail to do the Biden Administration's revenue, expenditure and GDP overestimates justice. The public is obviously burdened, by the overzealous enforcement, with coming to a safe and more affordable resolution to the spiritually uplifting civil case against both an old white male, and their overpriced real estate, and geriatric Biden's morbidly obese Treasury Secretary's administration, for the betterment of the nation. \$20 for the plaintiff, to both be right and avoid becoming liable for maintaining Trump's New York real estate empire "stolen" under the 7th Amendment and begin to take responsibility for the Echinacea Recount Agenda ([ERA](#)) of 2024.

On 10 January I texted an article titled Elective Johnsonectomy. I have a stiff neck from using an extra blanket as a pillow. Pray the Department of Commerce tells NOAA, Census 2020 stuffed the 2020 election and my recent email to compliment their statistics seems to have landed us Johnson, a name that is historically as bad a President as prostate doctor, whose medicine is not more credible than his castration. I would not be offended if Johnson had his oceanic cooling pumps removed. Austin and my father need a Johnson-ectomy to do their elective prostate surgery Justice this new year. Metronidazole is the most likely antibiotic if Austin is having trouble with resistance. Both the noaa and Australian SST anomaly maps seem to be suffering from some red and blue switching to hide the pleasant winter warming in Florida and Alaska that are driving winds and resentment. Both deception and sea temperature change is quite threatening to our two party system of red and blue states. The hostile cooling in the Gulf seems to be coming out of The Speaker's Louisiana ass, just like last winter's California cooling. The Department of energy should be able to dispatch oil tankers to cable out the R410 filled railcars from what seems to be the Mississippi Delta, but will require subsidy, because their clean energy budget has been been punished by their noncompliance with the 2,200 nuclear warhead limit, and the EPA prohibited R410a 1-1-23 and no has figured out to make any money disposing of the substance that is coveted by the last two Speakers. The railcars must also be refurbished after the bearings rust in the ocean. The gay Transportation Secretary might enjoy paying Energy for a Johnsonectomy. PS I have authorized the US General Fund Balance to pay for an interest free loan to the UN to pay Israel arrears to Palestine refugees today - \$12 billion.

This brings us to two issues of equal value to the United States, the welfare of the author of the Echinacea Recount Agenda of 2024 and the cost of reparation of damages caused by Biden's noncompliance with the 2,200 nuclear warhead limit, so that spineless federal officials and judges would not be so afraid of international sanction, as to fail to prosecute President Biden for his suspected Presidential mission tests of the seismic code and instead, for instance, abuse his son in tax court for the morbidly obese Treasury Secretary's revenue overestimates to give V Amendment just compensation and double jeopardy due process in this (abatement) case that can be completely settled by a HUD international office. First, as the result of Speaker Johnson's Louisiana cooled snowstorm and stiff neck from purchasing a thick blanket, I paid \$61.80 to stay in a Motel 6, after advil, metronidazole,

doxycycline, echinacea failed to abate the pain in my neck. The lavender epsom salt bath and sleep in a bed until the middle of the night when I woke up feeling pretty good and watched Casablanca until I fell back to sleep was nice. However, I have an obligation to seek HUD's representation for reimbursement to establish the credibility of both my decade long vow to never pay rent again and as a Congressional witness who is in a race with the Speaker to codify Title IX Federal Accounting Reform of the Echinacea Recount Agenda of 2024. This joint Trump-Biden disqualification case would be a great opportunity for the US Supreme Court to hold the disqualified President responsible for informing the public and agencies of the actual resolution of the General Fund and codify the Echinacea Reform Agenda of 2024, so that 3 percent inflation of Title IX Federal Accounting Reform, would not tread so heavily on my aging heart or time, that went up from 3 months to more than a year to do FY 2022 – 24 and the continuing resolution of agency budget, and it must be emphasized, revenue overestimates, would be judged in the court of public opinion.

So as not to forget to publish a link between Congress and the Echinacea Recount Agenda of 2024 in their Trump disqualification case, for the relief of public speculation, the US Supreme Court is asked to find the novel General Fund balance in Sec. 10,000 of the ERA of 2024 on the general appropriations bills 2USC§190f warrants just compensation of congressional witness fees to right Congressional persecution in this chapter, so that it is Congress who must stop refusing to testify or produce papers 2USC§192. Otherwise Congress will continue to be bullied with fictitious government shutdown threats due to concealed “loss of balance”, and consequently continue to be bullied by the democratic process and rule of law searching for a Treasurer, Speaker and President who are both fiscally competent and cuddly representatives of correspondence. Moving violation of the author's oath to never pay rent again, disregarding a handful of coerced fee campgrounds, over the 13 years, costs \$61.80, as warranted by 28USC§1821(d) is fair but the \$40 per diem, does not do the actual >365 days it took to balance the federal budget in 2022, work of the Government Publishing Office justice, or abatement of St. Elizabeths Hospital in the District of Columbia 24USC§225 et seq, justice, because Witnesses residing in the District of Columbia and not in the service of the government of said District or of the United States, who shall be summoned to give testimony before any committee of the House of Representatives, shall not be allowed exceeding \$2 for each day's attendance before said committee 2USC§195, is a cheaper way to filthy rich. So the US Supreme Court is charged today with deciding against the author of the ERA of 2024, they would still be judged by their obligated to publish a link to in their Trump case, or kindly find for either \$61.50 or \$730 witness fees be paid to the disabled author, applicant Public Trustee, trying to fill one of two vacancies since 2014, as well as everyone's pockets with inalienable US dollars for perpetuity, rather than for just the duration of my pedestrian and tax-free life, that might be paid by HUD to my Kamala Harris >\$20,000 September 2023 + 6 percent interest life savings embezzlement claim, insured \$250,000, rather than up to \$250,000 by the 2021 FDIC Annual Report, while in Washington DC, 24 September 2021 SSA BNC # 21T2379J53688-HA, to really pay attention to the ERA of 2024.

HUD is important for the United States to completely afford the vote of no confidence in President Biden. Prosecuting Biden is a very expensive proposal, while there's tons of money to steal from Trump, and threaten taxpayers with unchecked (customs and income tax) revenue overestimates with. The US Supreme Court must begin to reparate for their vote against Gore in 2000, and hopefully non-repetition of their mass-murder and return to the side of life and liberty, after a life behind bars. The case before President Biden is that he is not only accused of causing more than 300,000 casualties, due to his tests of the seismic code in violation of the Comprehensive Nuclear Test Ban Treaty (CNTB) of 1996, but has so far refused to comply with the 2,200 nuclear warhead limit set by Obama in 2012,

since he inherited Trump's nuclear buildup. Having already substantially compensated for the 2010 Haiti quake, without convicting Joseph Biden of nicking Obama's nukes, and disqualifying Biden from holding office, it behooves the United States to charge Joseph Biden for the casualty and property damage he has caused since he nicked Donald Trump's nukes in excess of the 2,200 limit, in the 2020 election fraud, with some money consideration for Biden repeatedly nuking Japan without paying and also compensating Haiti, the poorest nation in the Americas, with a trial of an international poverty line benefit, in pursuit of a 1 percent UN income tax to instantly end extreme poverty worldwide, financed one time or in perpetuity, by abolishing all international security assistance of the Department of State except Nonproliferation, Antiterrorism and Deming, acutely to do the biggest beneficiaries of non-benevolence, Egyptian and Israel neglect and abuse of Palestinian refugees justice, and end this corruption of US diplomacy. There is no denying that Biden must be held responsible for complying with the 2,200 nuclear warhead limit. An exact amount of reparation for relocation, injury and casualty, due to Biden's nuclear fault, at 100 percent inflation since the 1990 UN Compensation Commission rates, must be calculated to distinguish Biden from Trump (and now Johnson) disqualification under 22USC§6303, and obligate the General Fund Balance in Sec. 10,000 of the ERA of 2024 and pass the buck to HUD to extinguish claims for property damage.

Page 16 of Simchat Torah Memorandum HA-4-1-24 provides: The system of compensation for victims of war set forth by United Nations Security Council Compensation Commission for Iraq-Kuwait are applicable to the victims of all conflicts and disasters worldwide. To be fair, the rates must be doubled, due to 3 percent inflation since 1990, a lot like the \$5 immigration tax (1789) and \$20 civil trial (1791) can be increased by 666 percent, without further ado.

1. People forced to relocate as the result of military action \$2,500 -\$4,000 for an individual and \$5,000-\$8,000 for a family (1990); \$5,000 - \$8,000 for an individual and \$10,000 - \$16,000 for a family (2023)
2. People who suffered serious bodily injury or families reporting a death as the result of military action are entitled to between \$2,500 and \$10,000 (1990); \$5,000 and \$10,000 (2023)
3. After being swiftly compensated for relocation, injury or death an individual may make a claim for damages for personal injury; mental pain and anguish of a wrongful death; loss of personal property; loss of bank accounts, stocks and other securities; loss of income; loss of real property; and individual business losses valued up to \$100,000 (1990); \$100,000 (2023).
4. After receiving compensation for relocation, injury or death an individual can file a claim valued at more than \$100,000 for the loss of real property or personal business.
5. Claims of corporations, other private legal entities and public sector enterprises. They include claims for: construction or other contract losses; losses from the non-payment for goods or services; losses relating to the destruction or seizure of business assets; loss of profits; and oil sector or heavy industry losses.
6. Claims filed by Governments and international organizations for losses incurred in evacuating citizens; providing relief to citizens; damage to diplomatic premises and loss of, and damage to, other government property; and damage to the environment.

The claims for relocation, injury and casualty are extrapolated from the following cases, for the review of HUD for property damage. First, Biden is accused of financing a border wall in the US state of Texas, against the wishes of his party, for the ulterior motive of getting antidepressants from customs to manufacture amphetamine in Oregon to dose the allegedly Hamas, Simchat Torah attackers, for which the preliminary bill for damage to Palestine refugees is estimated at \$12 billion, to be paid by the US

General Fund balance, as a no interest loan immediately payable to the United Nations, to compensate Palestine refugees, to be repaid by Israeli arrears under Arts. 5 and 19 of the UN charter, Sec. 10,000 of the ERA of 2024 to be enforced by the General Assembly and International Court of Justice under Art. 36 of the Statute of the Court. Second,. compensation for Haiti, the poorest nation in the Americas, might be paid with a proceeds remaining from a public trial of an international poverty line benefit, in pursuit of a 1 percent UN income tax to instantly end extreme poverty worldwide, financed in perpetual pursuit of the one percent world income tax, or just once, for Haiti to pay cheaply for maybe two years, by abolishing all international security assistance of the Department of State except Nonproliferation, Antiterrorism and Deming, and transferring +/- \$8.5 billion, rarely spent, pursuant to the one percent world income tax proposal in Sec. 1,100 of the ERA of 2024. The State Department is encouraged to fight Congress annually to continue the one percent world income tax trial in Haiti by the 42 month limit on \$60-\$70 billion, the State Department, and not the UN, are believed to have achieved, although accounting of both roughly equal foreign empires, is delayed due to overestimates (Rev. 13:5). Furthermore, the following China, Japan and displaced person updated list of Biden's suspected nuclear tests of the seismic code in the nuclear fault prosecution Sec. 667 of the ERA of 2024, require UN compensation treatment, to be billed to bring Biden in compliance with the 2,200 nuclear warhead limit, without hope for reimbursement.

Haiti's Enriquillo Plantain Garden Fault, twice, on January 10, 2010, a quake of 7.0 magnitude struck at a depth of 8.1 miles, causing an astounding 220,000 deaths, and again on August 14, 2021 a quake of 7.2 magnitude struck at a depth of 6.2 miles, incidental to the discovery that 100 percent of Moïse assassins were State Department International Military Education graduates, after new building codes, another 2,220 died. Having paid compensation for the January 2010 quake, there remain 2,222 casualties from the August 2021 quake, plus displaced persons and property damage, President Biden is not believed to have paid for, while Haitian security has deteriorated badly. UN relief web estimates total economic damage and losses from this quake at USD 1.6 billion, or about 10 per cent of the gross domestic product (GDP). Some 2,528 people are still displaced as a result of the earthquake. The total area affected covers 500 square kilometres and over 800,000 people have been directly affected. Of 159 health facilities assessed, 28 have been severely damaged and 60 more have been damaged, with 456 schools impacted and 64 destroyed. Paying an international poverty line benefit to anyone making less than 200 percent of the international poverty line, would limit reparation for Biden's 24 August 2021 quake to 2,222 death benefits, for \$11.1 million, and 2,528 relocation assistance, for \$12.6 million, plus, for a total of \$23.7 million today plus HUD property damage assessment.

Having more or less compensated Japan with reconstruction and decades of friendship subsequent to the 1946 bombings of Hiroshima and Nagasaki, Japan's, Pacific Rim Subduction Zone, on March 11, 2011 the 9.2 magnitude Tohoku earthquake struck at a depth of 15 miles along the, causing 19,759 deaths and the Fukushima meltdown that brought Obama into compliance with the NPT. Approximately 20,000 people lost their lives and over 2,500 are still officially reported as missing, while a further 6,000 suffered injuries. In total, over 470,000 people were evacuated from their homes, for a total cost of \$2.5 billion. The US is not believed to have paid any reparation or been accused. Japan is believed to be insured, but the killer must pay. The January 1, 2024 Japan quake is not entirely counted up. There were about 430 fatalities and over 600 were injured. 62,000 people were ordered to evacuate. At \$5,000 per capita this costs \$2.15 million to survivors, \$3 million to the injured and \$310 million for the relocated, for a total of \$315 million, plus an indeterminate amount of property damage from the tsunami and earthquake that knocked over houses in a way that was very

indicative of an underground nuclear explosion, and unpaid damages from the 2011 quake for a total of \$2.8 billion, plus property.

The China quake, on 18 December 2023, shortly before the 1 January 2024 Japan quake, was incidental to the Colorado Trump disqualification case that was believed to have been shadowed by a Presidential mission of the Colorado National Guard and Air Force Academy, the third such crime of aggression, including a drone attack on Moscow, and the Morocco quake, and Libya tsunami treated herein, and incidental to a visit to China by Blinken to make one of his untimely accusations of human rights abuses in Hong Kong, ie. After the wrongfully detained, non-convicted Uyghur minority had been released from work camps, and terrorism had been eliminated, and then on false pretenses, the US under the influence of Pelosi, unchecked by the State Department, rudely boycotted the Olympics in China. 149 people were killed, nearly 1,000 were injured and more than 87,000 were resettled, and 14,000 homes were destroyed. Damages for the 18 December 2023 China quake are estimated at \$440 million, plus property.

An unspecified but relatively small amount of US compensation for the Colorado Air Force Academy drone attack on Moscow might be a nice way for the UN to start off the exchange of reparations from Russia and also from Ukraine to the badly damaged to purchase the separatist area from the revolution insulted despot who abolished term limits, and reparate for the damage Ukraine caused to the epicenter of that major war.

California, twice on December 20, 2021 a quake of 6.2 magnitude struck the Fuca/Gorda plates at a depth of 16.8 miles, and December 20, 2022 another quake of 6.4 magnitude struck the Mendocino Fracture Zone, at a depth of 11 miles, causing two fatalities, costing Biden \$10,000, plus property.

Türkiye and Syria East Anatolian Fault, on February 6, 2023 a quake of 7.8 magnitude struck at a depth of five miles, causing 50,000 casualties, right after the US Treasury sent an official to discuss sanctions against Russia. About 1.5 million people were left homeless. The confirmed death toll stood at 59,259: 50,783 in Turkey and 8,476 in Syria. 107,204 injured were injured in Turkey and 14,500 in Syria. Damages were estimated at US\$148.8 billion in Turkey, or nine-percent of the country's GDP, and US\$14.8 billion in Syria. Damage to persons is estimated at \$8.4 billion. There is no discount for harping on Erdogan to comply with seismic code specifications. Any compensation paid by negligent builders, going to jail in droves, is in addition. US disaster relief assistance in the immediate aftermath of the quake can be reduced from the bill for the US share of property damage.

Morocco's Marrakech mountain fault between the African and Eurasian Plates on September 8, 2023 at 11:11 pm, a 6.8 magnitude quake struck at a depth of 11 miles, causing more 2,000 casualties, a crime against the proposed admission of the African Union into the G20 by India Prime Minister Modi. A total of 2,946 people died, 5,674 were injured and 500,000 were internally displaced, for total damage to persons of \$2.5 billion, plus property damage.

Libya's Mediterranean Tropical Cyclone Daniel caused 6,000 dead with 9,000 still missing, due to 7 meter high tsunami destroying two dams, after careening through Greece, Bulgaria. Although there seems to have been some delay regarding the exact date of the Libya flooding, this seems to mean that the flooding in Libya and the earthquake in Morocco occurred simultaneously at 11:11 pm September 8, 2023, as the result of opportunistic nuking of Marrakech mountain fault during Storm Daniel. There

are estimated to have been 4,300 killed, (with 8,500 missing) and 43,000 displaced for total personal damages of \$237 million, plus property.

Afghanistan was hit by a wave of earthquakes between 7th and 15th October, in a region without faults, in 2023 reaching a magnitude of 6.3, directly affecting a total of 43,400 people across six districts. According to UN figures, as of 16 October 1,500 people have been killed and over 2,000 injured, for a total of \$217 million compensation for damage to persons, plus property.

Therefore, when the US Supreme Court, Trump, UN or any party to Biden's unproven but credible disqualification due to nuclear fault prosecution 22USC§6303, to finally enforce compliance with the US 2,200 nuclear warhead limit, the General Fund Balance has a total of \$14.6 billion available to immediately pay for damages to persons, plus \$12 billion loan for Israel arrears, plus an inestimable HUD property damage assessment, as much as \$100 billion total, from the \$500 billion remaining from the \$35 billion Postal Service Retiree Health Fund refund, available for FY 24, plus another \$535 billion FY 25.

Furthermore, Trump and Giuliani face appeals of decisions, that appear to be peculiarly demanding the defendant pay the plaintiffs who falsely incriminated them in violation of the V Amendment to the US Constitution. The plaintiffs seem to be mostly motivated by the necessity to extricate themselves from their own crimes of defamation and ballot stuffing respectively. The trials by partisan judge, mass media influenced juror and exclusion of the extreme minority of true jurists able to convict the plaintiff, are outdone by the greediness of their arbitrary demands, on appeal. The truth is the plaintiffs may need to plead for mercy for their cruel and unskillful takes on the usual blackmailing of Trump for money and power, to be harmlessly overturned, like the 2020 election results. Rape is not only a violent crime against women, a false rape allegation can be an extremely embarrassing type of defamation for a man, to be taken for all they are worth, imprisoned and have the key thrown away, to spare them the traditional extra-judicial killing for the alleged crime of rape (by a black man), often used to cover up infidelity by the white woman, in histories of racially motivated lynchings and massacres, or betrayal by a drug addicted black woman informant. The court does not prove the sexual assault case, but rather alleges that Trump's denial constitutes defamation, confusingly, hypocritically, the exact defense of Trump's professed innocence, claiming to have never met the woman, who looks like a former wife of his, before she began her defamatory and seemingly fictitious accusation of him sexually assaulting her in a court of law, who is less than discerning regarding using the right of non-self incrimination to distinguish fiction and non-fiction, in the absence of any forensic proof of victimization, must be considered blackmail 18USC§873. Vexatious litigation is meant to bother, embarrass, or cause legal expenses to the defendant. A plaintiff who starts such litigation either knows or should reasonably know that no legal basis for the lawsuit exists. \$20 for the defendant.

The Giuliani case strikes at the core of the election fraud. The US Supreme Court and public must be enabled to review the suspicious videotaped footage of the two election workers thought to have run the same ballot many times (with the names of different non-voters). Giuliani may have been overzealous to dismiss them, when the burden of proof is that their style of ballot stuffing the 2020 election was so usual, it cannot be criminally punished, whereas punishing a couple scapegoats does not discipline, or ensure the good conduct of more federal and state election employees than can be sentenced to up to three years in prison 18USC§595. The peculiar legal conundrum is that a five year sentence for threat of dismissal 18USC§874 is fifth third more extortionate than three years for stealing the election from Trump under §872. Giuliani's case resolves with these chastised women being re-

employed, perhaps in a more suitable job, or more likely as a reasonably protected witness against the 2020 elections results by the Department of Justice, rather than as a bearer of false witness for the election fraud, whereas receiving disability or retirement compensation, to which they are entitled under their contract of employment, is compromised whereas state employees don't contribute to the 12.4 percent OASDI tax, and are therefore liable to suffer the death threats of an insolvent state disability system. This should not be blamed on Trump, but on his common human inability or unwillingness to inform the public to tax the rich, state employees, and civilian defense contractors, the entire 12.4 percent tax on all their income to end child poverty by 2024 and all poverty by 2030, wash their nose - echinacea cures COVID, RSV and flu, or even explain “66.8 percent voter turnout in the 2020 elections is unprecedented since before 1900”, wherefore it is very obvious that ballot stuffing not only occurred, but due to Biden's victory and subsequent overestimates across the board, the ballot stuffing is infinitely more likely to be the scienter of the Democratic supermajority, than that of a sore Republican loser.

Proposed Ballot

Who should have won the 2020 Presidential Elections; Donald J. Trump or Joseph Biden?

2024 Presidential Candidates

Kamala Harris et al.
