1. United States v. Robert F. Kennedy Jr., Secretary of Health and Human Services

Ladies first. It was not possible to honor our pregnant, middle-aged mother Usha, in war, peace or Down syndrome, with the HA file name due to 'Pagefreeze' software abused by the Secretary of Health and Human Services (HHS), Robert F. Kennedy Jr. Note, the obstetric nature of her unenforced obligation, to seek approval of the Apache birth site, for which her youth and prior uncomplicated births make her a prime candidate, whether or not she would actually brave the *Totipotent Freshwater Sargassum Theory: United States v. Lee Zeldin, Environmental Protection Agency (EPA)* [HA-28-2-26](#).

The District Court is sought to determined whether to fine the Secretary \$100,000 for abusing 'Pagefreeze' under false pretense or \$250,000 for malicious harm to settle his computerized hypocrisy regarding the wrongful disclosure of individually identifiable health information, once and for all, pursuant to 42USC§1320d-6. The Secretary has been sued at least three times to have the 'Pagefreeze' software confiscated from the HHS Budget website pursuant to Confiscation of (software) property used to aid insurrection under 50USC§212 and Rule 41 Fed. Crim. P. To do all his thinking for him, it is now suggested that the malicious 'Pagefreeze' links on the HHS budget webpage be replaced with the unlinked term 'unavailable' and an effort be made to publish the missing years. HHS must prohibit 'Pagefreeze' software and reporting to Secretary Kennedy due to fraud and related activity in connection with computers 18USC§1030 that causes sufficient emotional distress to qualify as stalking, without anything but can of chicken soup to blame for the snot nose, 18USC§2261A. Once again the HHS budget website must edit links from file name defective 'Pagefreeze' to “unavailable”, that might be difficult because of the file name defect, and could be entirely redone in less than an hour, by the webmaster, and make an effort to find and publish the missing years.

While dismissing the Health Secretary from receiving individually identifiable computer information, it seems necessary to dismiss Robert F. Kennedy Jr. of war crimes carefully, like his CIA assassinated ancestors should have been, by his vote of Peace with Iran. While Kennedy's ostensibly non-toxic, computer fraud does not qualify as a biological experiment, his deep and unjustified budget cuts into legitimate National Institute of Health (NIH) biological experimentation is without a legitimate medical or dental purpose, and may endanger the body or health of Americans pursuant to 18USC§2441(d)(1)(C). Legitimate biological experimentation is neither considered an essential service, nor are the disgruntled, laid-off biological research scientists, more likely than I to test and and maintain water

quality neglected by the EPA budget cuts into life expectancy essential drinking and wastewater programs, and possibly abused by terrorist veterans, accused of poisoning a rusty water spigot with *C. tetani* during a warm spell, noted in *Totipotent Freshwater Sargassum Theory: United States v. Lee Zeldin, Administrator (and Veteran) of the Environmental Protection Agency* [HA-28-2-26](#).

The woefully prose poet, Secretary Kennedy, is to be lauded for the Administration of a Healthy America (AHA), sued for overestimation of Medicare and Medicaid expenditures and obligated to fully fund relatively affordable Public Health Services (PHS) three percent annual inflation for services pursuant to Part 409 of the President's Budget for Fiscal Year 2017-2027 [HA-2-2-26](#) – Property of the United Nations, due to international sanctions until the US votes for “Peace with Iran”, thereby ceasing to authorize, abet and support the Israeli attack on Iran, and pay compensation for the assassination of Ayatollah Ruhollah Khomeini and at least one elementary school of children.

2. United States v. JD Vance, Vice President

JD Vance, the Vice-President of the United States must vote for Peace with Iran. JD and his pregnant, Indian wife Usha, have until spring, March 21, 2026, to make Peace with Iran, to avoid final conviction as remorseless Republican war criminals, very similar to Hamas dosing Speaker of the House Mike Johnson, from the penal colony of Louisiana, but bolder under 18USC§2441 and Art. 8 of the Rome Statute (1999), in contempt of *Learning Resources, Inc. v. Trump* 607 US __ (2026), *President's Budget for Fiscal Years 2017-2027* (Property of the United Nations) [HA-2-2-26](#), Alleged violations of the 1955 Treaty of Amity, Economic Relations, and Consular Rights (*Islamic Republic of Iran v. United States of America*) No. 175 3 October 2018, Certain Iranian Assets (2018 – present) and Military and Paramilitary Activities in and against Nicaragua (*Nicaragua v. United States of America*) 27 June 1986.

JD Vance is accused of perjury regarding the Iranian civilian nuclear energy program, in the lead up to the joint Israeli-US attack on Iran, and this constitutes making or conveying false statement with intent to interfere with activities affecting armed forces during war 18USC§2388, a crime of treason, sedition and subversive activities pursuant to Art. 2(4) and 3(3) of the US Constitution. It should not be difficult to admit this error conveying ancient propaganda that has been prohibited time and time again under Art. 20 of the International Covenant on Civil and Political Rights (1966) justifies, not only Peace with Iran to restore peace to the Middle East after Trump was beguiled by Israeli lies amongst his Bolshevik Jewish accountants who BOMB the federal Treasury, and is now forever a war criminal, but Peace with Cuba and any other nation whose name must be repealed from Foreign Asset Control Title 31 of the Code of Federal Regulations. Due process of international sanctions is that foreign and domestic assets are seized in the name of “Property of the United Nations”. The Treasury corrupting FAC Theft gives rise to so much terrorism, many wars, zero convictions, zero federal revenues, zero victim compensation, the pathological lie must be prohibited, and repealed where the wide-scale and systematic attack on a civilian population, discriminates against a nationality.

Most of JDs other offenses, virtually every appearance in the news media, indicate Vance's youth, inexperience, fetal heroin syndrome, Iraq war, Shigella neurotoxin from midwestern water, and extremely high rate of incarceration of over one percent of Hamilton County residents, with more than half of Ohio's death row inmates and only 6 percent of the population, manifests as grunts emanating from the Marine Corp military journalist Iraq veteran, that charitably register as borderline personality disorder, an IQ of 70, with British politicians, not entirely at ease with Queen Elizabeth II's assassination by my alma mater, the University of Cincinnati's unwashable cardiotoxin and King

Charles III's US nuclear weapon purchase induced prostate cancer, in both of which, now retired, Sen. Sherrod Brown (D-OH) loomed large. To avoid interfering with JD's mother's heroin addiction, it seems best to attribute the decline in US fentanyl overdose deaths to the legalization of marijuana in hopelessly addicted Ohio incidental to the 2024 elections, and not any patently unlawful and totally insane military policy murdering alleged illegal drug offenders in other countries, when drug weaponization is so troubling to customs and domestic law enforcement.

Vance's delusions of being both “defense” attorney for murdering right wing extremists and remorseless false accuser of well-adjusted Haitian immigrant communities in Ohio, interfere with the international relations of a megalomaniacally unopposed “Department of (fraudulent) War ” President, with limited English language proficiency in bed, making war with Iran at the behest of his totally incompetent Office of Management and Budget (OMB) Director, Russell Vought whose inability to pay due to fraudulent entries and statements generally declaring the United States to be fiscally and morally bankrupt 18USC§1001 and an unjustified policy of terrorist civilian budget-cuts 18USC§2331 has escalated to activities affecting armed forces during war (with Iran) 18USC§2388 as noted in *United States v. Bureau of Fiscal Service and Office of Management and Budget (BOMB)* [HA-23-2-26](#).

Updating An Act Supplementing appropriations for the fiscal years ending Oct. 1, 2017-26 [HA-12-6-25](#) pursuant to President's Budget for Fiscal Year 2017-2027 [HA-2-2-26](#) the United States may fine the terrorist Bureau of Fiscal Services (BFS), who industrially bombs every email they receive and Office of Management and Budget (OMB), whose incompetent Director's propaganda for war with Iran is held entirely responsible for the prohibited war with Iran, for up to all they worth to create 'IRS Statistics'. Bureau of the Fiscal Service 2CFR§416.2(b)(12): \$448.3 million FY 26. 2CFR§416.4(b)(Q) Fiscal Service, Salaries and Expenses: \$3 million FY 26. Office of Management and Budget (OMB) 2CFR§420(b)(13) Office of Management and Budget: \$146,147 thousand FY 26.

An Act Supplementing appropriations for the fiscal years ending Oct. 1, 2017-26 [HA-12-6-25](#) provides in Sec. 600 Explosives Excise Tax

(a) To do commerce in explosives and Bureau of Fiscal Service overestimates and certain explosion every time they receive an email, justice, it seems necessary to impose a tax on explosives, so that all explosive materials are not only accounted for, the licensed and permitted, sale, purchase, transport and possession of all explosive materials, would be immediately known to both the Treasury Alcohol and Tobacco Tax and Trade Bureau (TTB) and Justice Department Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). The ATF would not need to B&E first, when speculating on explosive consumer records, that might or might not exhibit a red flag, or be faked. Explosives are currently regulated by licenses and permits issued by the Attorney General for less than \$200 27CFR§555, 18USC§841 *et seq.*

(b) All that is needed is to legislate a simple new common tax code at Subpart L 27CFR§555.225. There is hereby imposed a federal excise tax on the dollar amount of the sale of all explosives sold in the United States, including nuclear weapons purchased by the Department of Defense to be paid 6 percent at sale, 3 percent by licensed seller and 3 percent by licensed buyer and 3 percent at detonation by buyer. Ammunition is taxed 6 percent at point of sale. Transaction records attached to the excise tax will identify the licensed and/or permitted buyer, seller and shipper, as well as the serial number, type, quantity and price of the explosive material and the status of the 9 percent tax, 6 percent sale and 3 percent detonation.

(c) The United States shall not manufacture any nuclear weapons until the President has reported on compliance with the 2,200 nuclear warhead limit pursuant to the Atomic Energy Act of 1954 42USC§2122. Nuclear weapons sales will then be taxed 3 percent. All further nuclear weapons detonations will be taxed 3 percent of estimated sale value. Serial numbers of all nuclear weapons must be tabulated to determine their disposition: active, dismantled, detonated, whether or not lost or stolen. The United States President, who authorizes his personal nuclear weapons attache to detonate any nuclear weapon in the US arsenal, may be prosecuted for \$250 billion, including Iraq residuals, by 11 nations for UN Compensation on suspicion of fault regarding nuclear tests of the seismic code, other hostile environmental modification, \$100 billion for Haiti and \$88 billion Iraq war residuals, to enforce the 2,200 nuclear warhead limit.

3. Good Neighbor Policy

To do Usha and JD Vance justice it is necessary for his many disturbed neighbors, namely my father, school chums, and I, relocated, uninsured depositor, to fully instruct the Vice Presidential Vance family regarding 'interference' and good neighborliness pursuant to up to \$250,000 the Ohio General Assembly failed to get severely mentally ill Vice President Kamala Harris to cough up - Bancorp v. Deposit Insurance Fund (DIF) [HA-22-11-25](#), to be tried anew in the United States District Court for the Eastern District of Virginia. JD did once attempt to sort out this uneasiness, with a biblical quote equating loyalty to proximity, in what is perhaps his only blameless press release for which credit is due. Although there one or two ancient crosses cut into the Apache birth site cliff-face with iron knives, it might be better to leave the bible quotes to JD and the commandments - Do not murder, steal or bear false witness (Exodus 20:13, 15, 16)(Deuteronomy 5:17, 19, 20) at the top of President's Budget for Fiscal Years 2017- 2027 [HA-2-2-26](#).

First and foremost, as a good neighbor, who is more disturbed, than pleasantly surprised, by the geographic equality between my father, who slipped on the ice and I just bought some hiking poles for, and is threatening to get a second knee surgery, and the suddenly powerful legal representation of the Vice President under 24USC§420, now accused of war crimes on the condition of his vote for Peace with Iran. I would like to impress upon the Vice President that Trump's authorization to attack Iran and lay claim to Danish Greenland “interferes with international relations and territorial integrity of UN Member States”. All Members shall refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any state, or in any other manner inconsistent with the Purposes of the United Nations pursuant to Art. 2(4) of the UN Charter. This is the jus cogens, universal norm, of international law pursuant to Military and Paramilitary Activities in and against Nicaragua (*Nicaragua v. United States of America*) 27 June 1986.

No one shall be subjected to arbitrary interference with his privacy, family, home or correspondence, nor to attacks upon his honour and reputation. Everyone has the right to the protection of the law against such interference or attacks under Art. 12 of the Universal Declaration of Human Rights (1948). Interception and disclosure of wire, oral, or electronic communications by HHS Secretary Robert F. Kennedy must prohibited due to interference by his abusive, uncorrected 'Pagefreeze' software corrupting the HHS budget webpage in violation of 18USC§2511. Nothing in this subchapter shall be construed to authorize any Federal officer or employee to exercise any supervision or control over the practice of medicine or the manner in which medical services are provided, or over the selection, tenure, or compensation of any officer or employee of any institution, agency, or person

providing health services; or to exercise any supervision or control over the administration or operation of any such institution, agency, or person pursuant to the Prohibition against any Federal interference 42USC§1395.

Approving obstetric obligations at the Apache birth site for health insurance, a little more than one mile from the parking lot and helipad by foot, seems best done pursuant to Improved access to, and delivery of health care for Indians under Titles XIX and XXI of the Social Security Act under Sec. 1139 of the Social Security Act 42USC§1320b-9. A healthy American population pyramid (year) is sought to both anticipate the proportion of births (not) reported in the first year and do a really thorough job of counting births with \$1,000 Trump Accounts 26USC§6434, counting the under-age 18 population with \$1,000 Child Tax Credit (ors of the United States 18USC§914) 26USC§24(a) and of particular concern to home and Apache birth site births, a \$1,000 fine against a state vital statistics office to pay victim compensation for refusing to issue a birth certificate or social security number under 24USC§154 pursuant to [United States Atlas](#), 2026 [In progress](#).
